

WE SAY THAT STOP WASTING

# RENEWABLE RESOURCES

solar energy

wind energy

geothermal energy

hydropower

bioenergy

# Our Goals

**PRESENTATION**

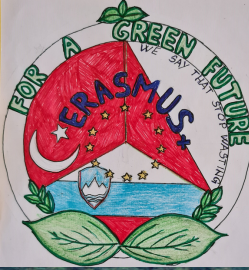

**ADVANTAGE**

**DISADVANTAGE**

**CONCLUSION**

**Renewable energy reduces local dependence on imported energy sources and increase energy security. They reduce greenhouse gas emissions, which has positive effects on environmental quality. New technology is greener and more efficient.**

**Let's identify the advantages and disadvantages and give our own opinion on new renewable energy sources.**

# STEP 1

## GROUP 1

### SOLAR ENERGY

## GROUP 2

### WIND ENERGY

## GROUP 3

### GEOTHERMAL ENERGY

## GROUP 4

### HYDROPOWER

## GROUP 5

### BIOENERGY

We will divide into five groups.

Each group will have the task of presenting a renewable resource in our newsletter.

# STEP 2

## WORK IN GROUPS:

1. Find articles on the topic of your renewable resource.
2. Make a short presentation on the resource; add positive and negative impacts.
3. Write your opinion on the resource presented.
4. Present the results in a newsletter
